What do you have to lose? Maybe just higher payments, unreasonable rates and inadequate service - take a look at the following true member story for an example of what we can do for our members:

*Joseph said he found out we did auto loans about a week after he bought his car. I asked what rate he got and he said it was 19%, so I told him we could refinance his loan at a lower rate. After doing the calculations I realized we could save him way more than I thought we could! I let him know we could lower his rate from 21% to 7.99%, which would save him a whopping \$64 a month! **He will save \$3136 on the remaining payments and \$3351 in interest for a total savings of \$6487.** He said next time he's getting pre-approved here first because we obviously have his best interest in mind!*
